On the FAFSA and/or the CSS Profile, your parent(s) included dependent(s) in your household size who would not typically be considered a dependent. The federal definition of an independent is someone who, among other criteria, is at least 24 years of age, is married, has children or other dependents, or is on active duty or a veteran. Someone who meets one or more of these conditions is typically considered to be independent and not counted in the household. If there are two or more individuals in the household who would otherwise be counted as independent, please complete a separate form for each person.
